

SUMMARY

CAREER OBJECTIVE Seeking a Front-End Developer role to build intuitive, responsive web applications using HTML, CSS, and JavaScript, alongside modern frameworks. I aim to deliver exceptional user experiences through clean code and strong UI/UX principles, contributing to a dynamic team.

EDUCATION

B.E-Computer Science & Engineering kathir college of engineering CGPA: 7.63/10	2022 - 2026
Senior Secondary (XII), Tamil Nadu State Board Science Sri Ragavendra Matric Higher Secondary School Percentage: 74.83%	2022
Secondary (X), Tamil Nadu State Board Sri Ragavendra Matric Higher Secondary School Percentage: 75.00%	2020

TRAININGS /CERTIFICATIONS

Front End-Development Jun 2025 - Present Simpli, Virtual	Full Stack Developer Jun 2025 - Present udemy, Virtual
Java Programming Jan 2025 - Feb 2025 Smart-yugam Academy, Coimbatore	Software Deployment Jun 2025 - Present udemy, Virtual
Neural Network Feb 2025 - Mar 2025 Simpli, Virtual	

SKILLS

- HTML
- Python
- CNN (Convolutional Neural Network)
- Embedded Systems
- CSS
- Java
- Figma
- JavaScript
- UI & UX Design
- MS-PowerPoint

LANGUAGES

- Tamil
- English

EXPERIENCES

Java Programming with Data Structures and Algorithms - Skill Enhancement Training

- Successfully completed a 21-day Skill Enhancement Training Program on Java Programming with Data Structures and Algorithms at Kathir College of Engineering in collaboration with Smart Yugam Academy. This program focused on enhancing problem-solving skills, algorithm optimization, and efficient data structure implementation in Java.

PROJECTS

Face recognition system
Feb 2025 - Apr 2025
Face Recognition System
Technologies Used: Python, OpenCV, CNN, NumPy
Developed a real-time face recognition system using Python and OpenCV. The system detects and recognizes faces from a webcam feed by applying CNN for detecting face recognition.

Responsive portfolio Website
Feb 2025
Responsive Portfolio WebsiteBuilt a personal portfolio using HTML, CSS, and JavaScript, implementing responsive design for cross-device compatibility.

Inventory management system
Jan 2025 - Feb 2025
An Inventory Management System is software that tracks and manages stock levels, orders, and deliveries in real time. It helps businesses reduce errors, avoid stockouts or overstocking, and improve efficiency. With features like barcode scanning and reporting, it ensures accurate inventory control and smooth supply chain operations.

Lettet Genertor Website
Jan 2025
An Letter Generator Website is used to create professional, personal, or official letters quickly and easily. Choose and customize your content, and download instantly. Perfect for job applications, resignations, and more. Simple, fast, and free. Start writing better letters in seconds.

EXTRA CURRICULAR ACTIVITIES

Speaker at the Millet World Record Event,
Organizer for the Fine Arts Club,
Facilitator of the Coding Club,
Coordinator at the College Symposium,
Volleyball athlete at the college level,
Proficient in communication.
